Aero-Access
PRODUCT DATASHEET

Aero-Access Rooflight

The Aero Access is a traditional skylight with a difference, it provides the advantage of opening fully and so has a dual function as an extra point of access to your roof space.

U value as low as 1.18 W/m2K* (or 0.92 W/m2K with our optional upstand)

Non-fragile glass

Laminated inner pane

Double thermal break

* Achieving system U-Values as low as 1.05 W/m²K. (0.92W/ m²k if used in conjunction with a Sunsquare upstand (optional extra) – meeting and exceeding the requirements of Approved Document L.

Watertightness
E1050 – according to BS 6375-1-2009

Resistance to Wind Load
A5 - according to BS 6375-1-2009

Acoustic Performance
RW = 39dB (calculation only) – according to EN ISO 140-3.

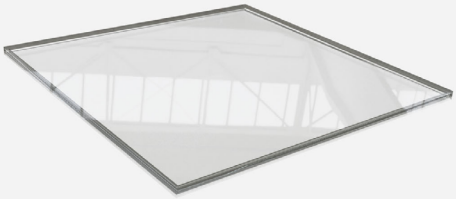
Air Permeability
Class 4 - according to BS EN 1026:2016 and BS EN 12207:2000

Security Performance
PAS 24:2016 for Enhanced Security Performance

Laminated safety inner pane
Meeting the requirements of Class 2 for non-fragility, according to Advisory Committee for Roof Safety red book, ACR[M]001:2014 which defines the tests for non-fragility, with particular reference to CWCT test guidelines and TN65, 66 and 67.

Standard Glass Specification

- 6mm toughened soft coat low E outer pane.
- 14mm Argon filled silicone sealed cavity with a black warm edge spacer bar.
- 8.8mm laminated safety inner pane.
- Other glass specifications available.



Glazing Options

Sunsquare provides an array of advanced glazing options beyond the standard specification, including **Solar Control** glazing, which reduces solar heat gain and enhances thermal performance; **LCD** switchable privacy glazing, allowing for instant privacy with electrically-controlled opacity; and **Mansafe** glazing, designed with enhanced safety features to meet fall protection standards. Additionally, the self-cleaning glass option features a photocatalytic coating and hydrophilic properties, significantly minimizing maintenance requirements.
